## Bussman fuses

### We Are Buss Fuse Headquarters

*American made, quality fuses for most every application*

Buss fuse is one of the largest fuse suppliers in north America. Buss takes the guesswork out of replacement options by removing out-of-date cross reference charts other brands offer. Buss eliminates future problems in obtaining replacement fuses. This reduces the chances of incurring a costly machinery failure due to incorrect fuse protection. Calkins Electrical supply company stocks a wide range of fuses and blocks to meet your every need. Everything from basic cartridges and small glass fuses, to ceramics, low-peaks, and semiconductor fuses, and from 250 milliamps to 1200 amps.

## Large selection of LED lamps and fixtures!
